Dean - IQAC, PES University**

ABOUT

StepCoin is India's fitness based app.

You will get app coins based on your activity, majorly on walking, running and sharing the app. Use these coins to get amazing rewards in the StepCoin app. These rewards can be discount coupons on product or services or to get FREE products.

The aim is to make you healthy and fit and at the same time earn some reward. (1000 steps = 1 coin)

WHAT THE APP PROVIDES:

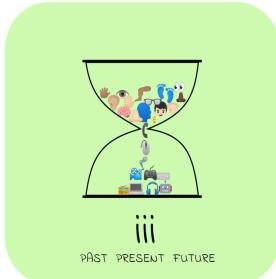

Your daily activity such as yours steps, distance covered, calories burned, your daily coins and total coins.

You will see some workout gif videos , excersice sessions and videos to workout with.

You can redeem your app coins to get discount on products or to win Amazing FREE products.

MOTIVE:

Make Every Step Count with StepCoin and get fit and healthy while getting rewarded at the same time.

WHY OUR RE-DESIGNED APP?

- Distance traveled is shown in various parameters along with calories burnt and time of workout
- Is calendarized well with homepage highlighting days when was workout done.
- Report showing daily, weekly and monthly breakdown of workout and statistics to keep track of consistency .
- Increases motivation to maintain streaks in workout through daily challenges and respective achievement unlocking.
- Walking /jogging source and destination can be added on maps . Helps in exploring new areas and better routes .
- History of maps used for workout is logged in for future reference .

PAST PRESENT FUTURE

WHY OUR RE-DESIGNED APP?

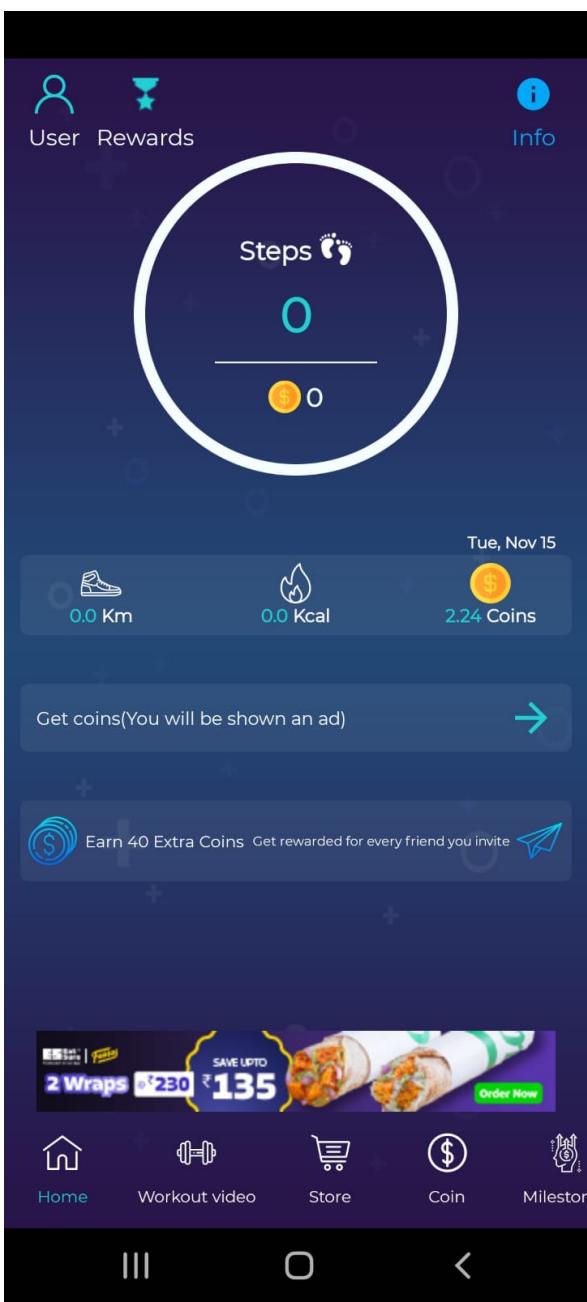

- For as many calories burnt , so many coins are earned and stored in , which can be used to retrieve offers from various trending e-commerce websites/ apps.
- Not just restricted to counting the number of steps walked but also includes various exercise domains and assistance to do so.
- Can keep track of amount of water drank in a day . Threshold can be adjusted as per needs.
- BMI is calculated to measure how healthy an individual is.
- Weight and personal information is kept track of .
- Any trouble in understanding the functions / features can be searched for in instructions section , which has answers for every possible situation arising .
- Sensitivity of gesture and step goal can be adjusted as per need.
